

BODY STYLING

CARBON FIBER HOODS & TRUNKS

JSP Carbon Fiber hoods and trunks are hand crafted in N. America with class "A" carbon fiber and hi tech resins. They have a proprietary clear coat that results in a beautiful wet mirror finish that is show quality and functional. UV protection prevents clouding, yellowing and allows drilling for easy installation of nozzles and hood pins. A one piece backing that is finished in high gloss black with latches riveted at four points round off these pieces of unmatched workmanship.

All hoods and trunks have a weight savings of approximately 50% and are designed with O.E. matching crumple zones. Meticulous inspection is performed on each hood and trunk to ensure a perfect fit every time.

All Carbon Fiber Hoods, Trunks and Scoops are also available in Fiberglass
